

Health and Safety Policy

Version: v1.0

Date: March 2026

Document ID: PD-006

1. Purpose

The purpose of this policy is to ensure that all employees, consultants, contractors, and visitors are provided with a safe and healthy working environment. The organisation is committed to preventing accidents, injuries, and work-related health issues by promoting safe working practices and maintaining appropriate safety standards.

This policy outlines the responsibilities of both the organisation and its employees in maintaining a safe workplace. It also provides guidance on identifying hazards, reporting incidents, and responding to emergencies.

2. Scope

This policy applies to all individuals working for or on behalf of the organisation, including:

- employees
- consultants
- contractors
- temporary staff
- visitors on company premises

It applies to all working environments, including:

- office locations
- remote working environments
- client sites
- any location where work-related activities are carried out

3. Organisational Responsibilities

The organisation is responsible for:

- providing a safe and secure working environment
- ensuring that equipment and systems are maintained and safe to use
- identifying and managing workplace risks
- providing appropriate training and guidance on health and safety
- ensuring compliance with relevant health and safety regulations

The organisation will take reasonable steps to minimise risks and maintain high safety standards across all areas of operation.

4. Employee Responsibilities

All employees share responsibility for maintaining a safe workplace. Employees must:

- follow all health and safety procedures and instructions
- take reasonable care of their own health and safety
- consider the safety of others around them
- use equipment correctly and safely
- report hazards, incidents, or unsafe conditions immediately

Failure to follow safety procedures may put individuals at risk and may result in further action.

5. Workplace Safety

Employees must maintain safe working practices at all times. This includes:

- keeping work areas clean and organised
- avoiding obstruction of walkways and exits
- using equipment only for its intended purpose
- following safety instructions when using machinery or tools

Any unsafe conditions must be addressed or reported as soon as possible.

6. Risk Assessment

The organisation will carry out risk assessments to identify potential hazards and implement appropriate control measures.

Employees must:

- follow any control measures put in place
- be aware of risks associated with their role
- cooperate with any safety procedures

Risk assessments may be reviewed regularly to ensure ongoing effectiveness.

7. Equipment Safety

All equipment provided by the organisation must be used safely and maintained in good condition.

Employees must:

- inspect equipment before use where appropriate
- report any faults or damage immediately
- avoid using defective or unsafe equipment
- not attempt unauthorised repairs

Only trained and authorised individuals should use specialised equipment.

8. Fire Safety and Emergency Procedures

Employees must be aware of fire safety procedures and emergency protocols.

This includes:

- knowing the location of fire exits and assembly points
- following evacuation procedures when required
- not blocking fire exits or emergency equipment
- reporting fire hazards immediately

In the event of an emergency, employees must follow instructions provided by designated personnel.

9. Incident and Accident Reporting

All accidents, injuries, and near misses must be reported promptly.

Employees must:

- report incidents to their manager or designated contact
- provide accurate details of what occurred
- cooperate with any investigation

Reporting incidents helps the organisation identify risks and prevent future occurrences.

10. Health and Wellbeing

The organisation is committed to supporting the health and wellbeing of employees.

Employees are encouraged to:

- take regular breaks
- maintain a balanced workload
- raise concerns about stress or workload
- seek support where needed

Managers should support employees in maintaining a healthy work environment and addressing any wellbeing concerns.

11. Remote Working Safety

Employees working remotely must ensure that their working environment is safe and suitable.

This includes:

- using a stable and appropriate workspace
- ensuring proper seating and posture
- avoiding hazards in the home environment
- taking regular breaks to prevent strain

Employees remain responsible for their health and safety when working remotely.

12. Training and Awareness

The organisation may provide training and guidance on health and safety topics.

Employees must:

- attend required training sessions
- follow guidance provided
- stay informed about safety procedures

Ongoing awareness is essential to maintaining a safe working environment.

13. Non-Compliance

Failure to comply with this policy may result in:

- safety risks to individuals
- disciplinary action
- restriction of activities or responsibilities

Serious breaches may lead to further investigation and appropriate action.

14. Policy Review

This policy will be reviewed regularly to ensure it remains effective and compliant with current regulations and organisational requirements.

Updates will be communicated to all employees, and the latest version will be made available through the company portal.
